makerminded

*Opening **minds** to*
**ADVANCED
MANUFACTURING**

Why **maker**mind?

*MakerMinded exists to **excite** students about STEM related careers early in their educational paths, especially opportunities in the **advanced manufacturing** field. Students, teachers, and parents are encouraged and **rewarded** for their participation in the activities available in their state.*

How it works...

SIGN UP

Go to makerminded.com and create an online account for your school.

HAVE FUN

Access the activity portfolio and complete many fun STEM experiences.

SUBMIT POINTS

Submit pictures of completed activities for points to compete to join the leaderboard.

WIN

The schools with the most points at the end of the year win a Virtual Reality Cart for their school and are recognized at a high publicity event. Individual students can also win STEM Camp scholarships for outstanding participation.

Benefit to Teachers

MakerMinded is a unique way to promote STEM awareness and encourage all schools, regardless of location, to challenge their students to **critical thinking** and **problem solving** through activities that are **accessible** to their specific needs.

All activities directly support an **inquiry based** curriculum and many directly align to **Common Core standards**.

MakerMinded is the platform that will set **ALL TN** students up for success and help them become well-rounded, 21st century ready students.

Don't be left off the map.
