

K'nex Elementary Math and Geometry

K'NEX

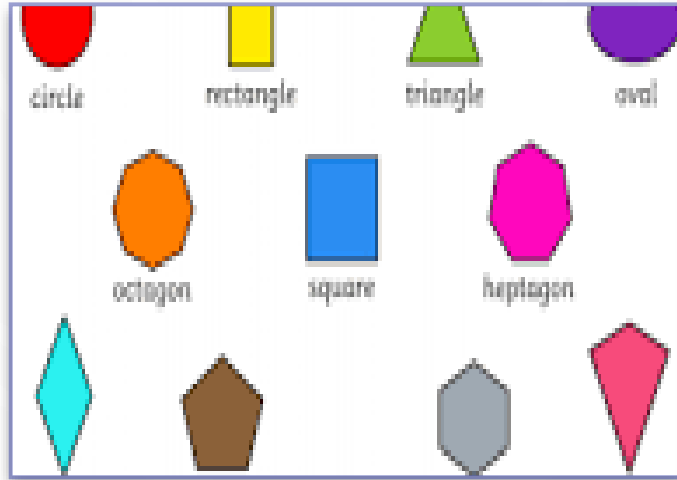

- K'nex are like Legos
- A kit is comprised of:
 - Rods
 - Connectors
 - Gears
 - And other components that can build mechanisms and structures.

LESSON TYPES

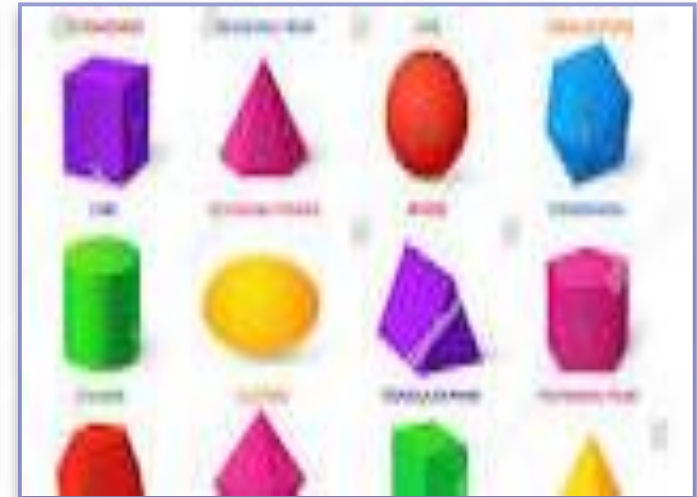

LINES AND ANGLES

Both lines and angles form the base for any shape in geometry

2D SHAPES

Shapes with two dimensions, such as width and height

3D SHAPES

shapes with three dimensions, such as length, width, and height
